

Read Before You Install: HP TP Web Connector Version 5.0

January 2006

Dear Customer:

This letter includes information on *HP TP Web Connector* that you should be aware of before installing the product. The TP Web Connector is licensed with ACMS. A separate license does not have to be purchased. See the Software Product Description for more information (SPD# 64.97.10)

Features and Enhancements

The following is a list of the new features or enhancements that have been incorporated into this release of the product:

- Items that were previously documented only in the Release Notes have been added into the product documentation set
- Documentation changes to reflect retired features
- All product documentation and media have been brought up to the latest HP branding standards
- TPware .NET Plugin has been implemented to take advantage of the .NET Platform

Kit Contents

The following lists the major components of the *HP TP Web Connector* kit. The term TPware refers to a collection of components that comprise the client portion of the HP TP Web Connector product.

- *HP License Agreement*
- *Read Before You Install: HP TP Web Connector Version 5.0*
- *HP TP Web Connector Version 5.0 Software Product Description*
- *HP TP Web Connector Installation Guide*
- *HP TP Web Connector Getting Started*

Release Notes

Prior to attempting to install the product, it is recommended that you read the *Release Notes*. The *Release Notes* contain a summary of the known problems, restrictions and installation-related instructions, as well as new features.

The *Release Notes* for the *HP TP Web Connector* product are on the TPware Product Installation Package. The *Release Notes* can be accessed from the following files:

webcon_release_notes.htm
webcon_release_notes.pdf

The *Release Notes* applicable to the HP TP Web Connector Gateway for ACMS are on the HP TP Web Connector Gateway Installation Package. The *Release Notes* can be assessed by invoking the appropriate command when running the VMSINSTAL procedure. The file name is:

acmsda050.release_notes
acmsda050_release_notes.ps

Installation Information

Read the *Release Notes* and *Installation Guides* for detailed information on how to install the product. These documents also identify any restrictions and how they may apply to your environment.

Refer to the *HP TP Web Connector Version 5.0 Software Product Description* for prerequisite and optional software requirements.

The *setup.exe* program takes you step-by-step through the install procedure. When making the product selections in the TPware installation, a dialog box appears prompting for the entry of a product license key. The product license key for TPware Development Kit is:

Product License Key: 20211-000-0009027-00764

The product license key for TPware Runtime Kit is:

Product License Key: 20111-000-0007376-00994

Web Page Information

For additional information on the *HP TP Web Connector* and related products, go to the HP web site (<http://h71000.www7.hp.com/>). The TPware products are accessed by selecting “OSs and Software” on the main page and then selecting “Middleware” on the “OSs and Software” page.

Retired Features

The documentation was updated to reflect the following retired features:

- Support for OpenVMS VAX
- Support for the Compaq Portable TP for Windows NT product and its MTS/DCOM transport
- Support for the Compaq Application Optimizer product
