Return one of the cards below and get timesaving tips and techniques for Solaris

If you're using the SunSoft® Solaris® software environment, The Cobb Group has an information-packed, "how-to" publication just for you. The timesaving tips and techniques you'll find in *Inside Solaris* will help you establish and maintain an efficient operating environment. We guarantee it!

Inside Solaris provides solutions to the problems you face today... and tomorrow. Each issue will explain—in plain English!—hard-hitting topics such as:

- Using Shell Scripts to automate backups
- Installing and configuring your application software

- Setting up access to your modems, printers, and peripherals using SAF (Service Access Facility)
- Using Automounter for mounting NFS remote volumes
- Configuring your mail host to route outside mail

You'll learn timesaving strategies and discover practical solutions to all of your Solaris questions. Each issue of *Inside Solaris* is full of proven information guaranteed to help you work smarter to meet your changing system requirements.

Take advantage of the Solaris operating system—send for your **free issue** of *Inside Solaris* today.

Published by The Cobb Group, the world's leading publisher of software-specific journals, *Inside Solaris* offers real-world techniques to help you get the most out of Solaris.

To receive your complimentary copy of *Inside Solaris*, complete and mail one of the cards below.

Or call:

800-223-8720

Act now! There's no obligation.

Articles give you practical tips and techniques for getting the most out of your software.

The text takes you through each step of the process.

Illustrations show you how to solve time-consuming complex problems, and allow you to try out the tip or technique as you read the article.
