

## Introduction to the Range of Use

The Range of Use is a rich library of scenarios, each of which describes technology use in a one to one learning environment. The scenarios detail rich, authentic learning practices in a wide variety of content areas and grade levels.

The Range of Use also contains a host of diverse technology resources, many available as Web 2.0 tools, which can be used in the classroom immediately.

The Range of Use features six categories of technology scenarios and tools:

## Accessing the Range of Use

To open the Range of Use interactive, open your course CD and navigate to the index.html page found in the /resources/Range\_of\_Use folder.
