Good

Putting PDFs on Jet

- In Powerpoint "New" -> "New from Template..."
- Choose the "ReconOS UI Template.potm"
- Click Enable Macros
- When the slides are prepared, export as PDF
- Save PDF to Desktop
- Open Jet and open "enterprise" directory
- In the "enterprise" directory open "pdfs" directory
- Drag the PDF from Desktop to "enterprise/pdfs"

Swipe down for last slide

- Firmly and quickly Double Tap the right hand side of Jet
 - A message “ZOOM” will appear
 - Swipe forward to zoom in
 - Swipe backward to zoom out
 - Firmly Double Tap the right hand side to toggle back to DRAG
-
- NB This functionality is available in all PDFs
