

BASIC listing: NOKEYB.BAS

```
*****
' *                               N O K E Y B                               *
' *-----*
' * Task : Demonstrates clearing the keyboard buffer. *
' * This is useful for protecting the user from *
' * accidental keystrokes during an important *
' * command (e.g., deleting files). *
' *-----*
' * Author : Michael Tischer *
' * Developed on : 01/01/92 *
' * Last update : 04/07/95 *
