

THE RANGE ROVER VOGUE

2011

The Range Rover Vogue stands alone, above all others as the flagship, as the ultimate, as the supreme luxury four-wheel drive vehicle. It stands enhanced, further extending its leadership with the world's finest interior and increases its capability, performance and economy yet again. It is peerless. The most advanced, most powerful, most complete luxury four-wheel drive vehicle is Range Rover Vogue.

Introduction

PAGES

Our Planet

Our plan for a sustainable future

PAGES
66-67

Range Rover Vogue. The iconic Range Rover Vogue design in its most modern, most contemporary form. Iconic design expressed through unique exterior styling. A front grille and front headlamps featuring the Range Rover Vogue signature 'concentric circle' design. A 'three-stripe' LED theme on indicators and all-LED rear lamps, continued through the side vents on all models. A pure design for the front bumpers creating a wide, assured stance. Complemented with a Jupiter finish to the front grille and side vents, as well as a unique Noble-plated finish on Supercharged and Autobiography derivatives. Supremely gracious and utterly elegant. Range Rover Vogue.

The imposing grille provides a commanding on-road presence.

Unique Range Rover Vogue front headlamps make optimum use of Xenon and LED technology offering 'automatic on' functionality and directional lighting.

Automatic High Beam Assist for the headlamps detects oncoming or followed vehicles to switch between high and dipped beam. (Optional as part of the Vision Assist Package on some models).

The new, exclusive Exterior Design Pack. Individual. Assertive.
An even more imposing attitude that's authentically Range Rover Vogue.

Features include unique bumpers, side sills that create a deeper, wider road presence, front grille, side vents and fog lamp surrounds in Titan silver, stainless steel exhaust finishers and the availability of new, stunning 20 inch Shadow Chrome Finish alloy wheels.

The new LR-TDV8 Diesel's astonishingly smooth delivery of power and torque has been described as 'like a plane accelerating down a runway'.

All new LR-TDV8 Diesel engines feature an eight-speed automatic transmission incorporating Drive Select with Paddle Shift as standard.

The new LR-TDV8 Diesel's advanced 8HP70 eight-speed automatic transmission adapts to driving style and outside conditions. It is also able to 'skip shift' (for instance, directly from eighth to third gear in one step) to improve response, performance and fuel economy. The transmission has a wider spread of ratios which results in a more relaxed 'cruising gear' while preserving 'off-the-line' and off-road performance. All this is achieved with no increase in weight and improves fuel efficiency by 15 percent.

The new LR-TDV8 Diesel has been developed as part of the Land Rover e TERRAIN TECHNOLOGIES engineering philosophy which commits to sustainable initiatives.

Introducing the new LR-TDV8's 4.4 litres of turbocharged diesel power. The new LR-TDV8 Diesel 4.4 litre engine provides more power, new levels of refinement and better fuel economy for the most accomplished, most capable, luxury four-wheel drive vehicle in the world. This is the Range Rover Vogue's most powerful ever diesel engine. Now with a new, faster eight-speed automatic transmission incorporating Drive Select with Paddle Shift as standard. It joins the much acclaimed LR-V8 Supercharged as part of the all-V8 Range Rover Vogue line-up.

The new LR-TDV8 uses advanced technologies, including parallel sequential turbocharging. This works with the new, eight-speed transmission to improve economy by 15 percent and lower CO₂ emissions from 295 to 253g/km while making truly remarkable increases in the breadth and, utterly polished, delivery of instantaneous power and torque. The new, smooth-shifting wide ratio eight-speed transmission, with its Transmission Idle Control and advanced gear and clutch configurations, makes full use of this significant improvement. The result is 0-100kph in 7.8 seconds and the availability of 700Nm of torque all the way from 1,500 to 3,350rpm. Ceramic glow plugs improve combustion efficiency and effectively provide Press & Go start up. A reduced compression ratio of 16:1 improves engine durability. The new LR-TDV8 works in perfect unison with its new, eight-speed automatic transmission to deliver on the Range Rover Vogue promise: performance, refinement and an ultimate breadth of capability that is equally at home in the outback as it is at the opera.

LR-V8 Petrol engines incorporate the Dual Independent Variable Camshaft Timing system (DIVICT) which provides increased torque at low speeds and greater power at high speeds.

Direct injection on LR-V8 engines for optimised performance and fuel efficiency.

The latest-generation supercharger on the LR-V8 Supercharged engine improves airflow for low-speed torque and high-speed power.

The LR-V8 Supercharged engine features a six-speed automatic transmission with CommandShift® for better response and smoother, more efficient gear changes. It is tuned to maximise the Range Rover Vogue's performance and capability in all conditions.

LR-V8 Supercharged reaches unsurpassed levels of performance with a power output of 510bhp and is the most powerful engine ever fitted to the Range Rover Vogue.

The 5.0L LR-V8 Supercharged Petrol engine is designed specifically with the Range Rover Vogue in mind. This engine raised the art of Petrol engine design to a whole new level and set new benchmarks for economy, refinement and performance. The lightweight engine is super-efficient and meets the stringent EU5 emissions regulations. Delivering 510PS and 625Nm, this supreme V8 engine is 29 percent more powerful than its predecessor and produces 12 percent more torque. Such massive performance allows the supercharged Range Rover Vogue to accelerate to 100kph from rest in a mere 6.2 seconds. Even more remarkably CO₂ emissions are just 348g/km, a reduction of 7.4 percent compared with its predecessor.

The command driving position. The confidence and the security to take advantage of the Range Rover Vogue's capability on-road and off-road because the driver is perfectly placed to interact with the vehicle and the surrounding environment in a wide range of conditions. The command driving position brings a sense of control. It helps to reduce stress and fatigue. It offers all-round visibility and a familiar sense of wellbeing, security and composure with intuitive control of all key vehicle functions. One glance at the virtual instrument panel reveals the very latest Thin Film Transistor (TFT) LCD technology providing a revolution in the clarity of driver information. There is the subtlest mood lighting to enhance the interior ambience at night.

The 12 inch TFT-LCD virtual instrument panel uses the same technology found in high-quality computer laptops and can be both personalised and adapted to suit the driving conditions.

Steering wheel controls and switches, including two five-way toggle switches, control the In-Car Entertainment system, the TFT-LCD virtual instrument panel and numerous other vehicle feature settings.

High grade leather for the steering wheel and the addition of a Noble finish to the steering wheel spokes for extra refinement.

Voice Recognition system with simple commands to aid safe and convenient interactivity with the Infotainment system.

Autobiography with 6 Speed CommandShift® pictured

The Range Rover Vogue. The finest, most capable, luxury four-wheel drive vehicle on-road in the world. It offers sublime handling and comfort courtesy of both air suspension and Land Rover's unique Terrain Response® system. The acclaimed interlinked electronic air suspension is standard across the range and copes effortlessly with a wide variety of vehicle loads and works alongside Adaptive Dynamics*. Additionally Dynamic Stability Control (DSC) provides enhanced handling when accelerating or cornering and includes compensation for the towing of trailers. It constantly monitors key indicators and applies the Anti-lock Brakes (ABS) selectively to individual wheels, helping to correct deviations from the driver's chosen line. 21st century technology that gives extra peace of mind.

Enhanced Understeer Control uses the Range Rover Vogue's technologies to increase stability and help improve safety. The system recognises when the vehicle is travelling too fast to smoothly negotiate a corner, by reducing engine torque and, if necessary, applying the brakes to the appropriate wheel.

Hydraulic Rear Brake Boost works when the rear axle is heavily loaded and the ABS is triggered on the front brakes only. It increases rear brake line pressure until the ABS activates. This ensures grip is maintained regardless of vehicle loading.

Trailer Stability Assist compensates for trailer oscillations employing engine torque reduction and/or braking to help re-establish control.

*Adaptive Dynamics standard on Autobiography models

Range Rover Vogue. Unsurpassed control and driveability. Terrain Response® works alongside Adaptive Dynamics*. Adaptive Dynamics not only provides the best ever Range Rover experience over rough roads by fully utilising the vehicle's long suspension travel to absorb potholes or ruts, it also provides enhanced control at higher speeds while cornering or braking. Adaptive Dynamics takes the Range Rover Vogue's ride and handling to a new level.

It works by predicting the response to driver input, and monitors contact with the surface of the road 500 times a second, allowing the system to help mitigate any excessive movement, rather than a conventional system which reacts after the vehicle has already moved. From the extremely rough surface to the smoothest road, this delivers significant off-road and on-road benefits.

Terrain Response® uses a fingertip control on the centre console (and grouped in a convenient cluster with the air suspension height control, Hill Descent Control (HDC) with Gradient Release Control (GRC) and the high/low gear ratio selector) to choose settings for different driving environments.

Adaptive Dynamics predicts the response to the driver's actions and helps ensure that all occupants are transported in the greatest possible comfort and security regardless of the road surface and variations in conditions.

-  General Driving
-  Grass, Gravel, Snow
-  Mud & Ruts
-  Sand
-  Rock Crawl

*Adaptive Dynamics standard on Autobiography models

The Sand Launch Control system minimises wheel spin when moving off from a standstill and helps to prevent the vehicle from 'grounding out'. Once the vehicle reaches the appropriate speed slip thresholds are increased to maintain progress.

Hill Descent Control (HDC) with Gradient Release Control (GRC) is designed to apply varied brake and accelerator pressure to help achieve acceleration gradually and more smoothly.

Range Rover Vogue. The finest, most capable, luxury four-wheel drive vehicle off-road in the world. With an unrivalled heritage, it is packed with 21st century technology that delivers the most outstanding all-round performance and incorporates more than 60 years of Land Rover expertise. Terrain Response® remains the benchmark for off-road vehicle systems.

As well as including Sand Launch Control, traction control while braking, enhanced traction during rock crawl and Hill Descent Control (HDC) with Gradient Release Control (GRC), this technology takes yet another step forward with Gradient Acceleration Control and Hill Start Assist. Gradient Acceleration Control prevents situations where the vehicle might 'run away' on a steep gradient (and Hill Descent Control has not been selected), allowing the driver time to regain control. Hill Start Assist automatically releases brake pressure progressively on a steep gradient and prevents the vehicle from inadvertently rolling backwards.

Range Rover Vogue combines craftsmanship and luxurious internal dimensions that are complemented with an array of advanced technology features such as the availability of Touch-screen with dual view technology*. This allows different images to be viewed simultaneously by driver and passenger. For instance, the passenger may watch a DVD while the driver maintains normal vehicle navigation information. The Touch-screen with dual view technology is accommodated in the centre control panel.

The Touch-screen with dual view technology uses 1,280 x 480 resolution, patented Parallax Barrier technology to display alternative columns of pixels to left and right-hand views, allowing driver and passenger to see different images.

*Standard on Autobiography models

Satellite Navigation is based on a Hard Disc system that facilitates more prompt retrieval of information as well as increasing reliability and accuracy and offering data upgrades from a Land Rover Dealer. Graphics and information are displayed clearly along with intuitive menus for ease of use.

Breakthrough technology appears in the form of the advanced Surround Camera System*, which gives the driver five different views from points around the exterior of the vehicle.

Another cutting edge technology is the introduction of Tow Assist, a next-generation reversing aid designed to predict the rearward trajectory of both vehicle and trailer.

Blind Spot Monitoring* uses side-mounted radar to warn of vehicles in the driver's blind spot. A bright amber warning icon is illuminated in the appropriate door mirror when a hazard is identified.

Range Rover Vogue has one of the most sophisticated arrays of safety aids ever built into a vehicle. Its monocoque body and integrated chassis give, thanks to the high-strength steel construction, class-leading torsional rigidity. There are seven airbags. For side impact protection there is one of the largest curtain airbags ever fitted to a passenger vehicle. There is permanent four-wheel drive with Dynamic Stability Control.

There is Hill Descent Control (HDC) with Gradient Release Control (GRC), which gives even greater control and confidence in demanding off-road conditions. And there is Blind Spot Monitoring*. This system utilises side-mounted radar to detect other vehicles that may be obscured in the driver's blind spot. More technology. More safety systems. Range Rover Vogue.

*Standard on Autobiography models

Effortless driving in demanding conditions. In addition to cruise control, which is fitted as standard, Adaptive Cruise Control (ACC) is also available. This latest generation ACC system uses 12 beams to scan the road ahead ten times every second and provides earlier identification of vehicles moving into the path of the Range Rover Vogue. One of the most advanced systems on the market, it offers more progressive deceleration and resets more accurately. It is also better able to identify smaller road users, such as motorcycles, against larger vehicles and trucks. Forward Alert and Emergency Brake Assist (EBA) complement ACC and work together to help, in the first instance, avoid a collision by giving audible and visual alerts and then, should an impact become inevitable, triggering EBA and priming the vehicle braking system.

The optional Adaptive Cruise Control System can be programmed to one of four settings of between a 1.0 and 2.2 second interval from the vehicle in front in normal driving conditions or when Grass, Gravel, Snow is selected on the Terrain Response® system.

RANGE ROVER

Design that is truly masterful. Renowned for the world's finest luxury interior, the Range Rover Vogue reaches even higher levels of luxury and elegance. The finest combination of veneers and leather.

As many as ten of the finest leather hides* cocoon all occupants in the Range Rover Vogue. A full leather headlining and a full leather covering for the facia, as well as glove box lids, door casings, centre vents and the driver's knee airbag panel are available depending on the model.

The softest leathers from only the very highest quality hides. Hides that retain the leather's natural grain. Hides designed to improve with use and age.

*Bovine sourced

Blenheim Leather - Parchment seats with Navy piping

Blenheim Leather - Ivory seats with Arabica piping

Oxford Leather - Arabica seats with Ivory piping

Oxford Perforated Leather - Ivory seats with Jet piping

Reclining rear seats with four-way lumbar control, heated/cooled functionality, head restraints with lateral support.

Range Rover Vogue's rear accommodation offers superb noise insulation and complements the recent redesign to rear seating, which increased comfort and ease of entry and exit. The option of electronically controlled reclining rear seats, offering up to eight degrees of recline, is available on certain models. This is the perfect place to travel in chauffeur-driven style, comfort and luxury, whether travelling for business or pleasure.

A new Touch-screen remote control is introduced for vehicles fitted with the Rear Screen Entertainment System. Housed in a specially designed charging docking port within the rear centre armrest, it can be easily removed for use by the occupants of any seat and provides a more intuitive, user-friendly experience.

Portable Audio Interface includes a 3.5mm auxiliary socket, USB port and dedicated iPod connection.

A total of 19 integrated speakers, including four in the doors and one centrally-mounted in the fascia.

First-class entertainment. With a maximum output of 1,200W*. The Range Rover Vogue houses a superb 19 speaker LOGIC7® **harman/kardon®** sound system with Portable Audio Interface that allows files from a wide range of sources to be played and controlled through the Touch-screen, while also offering the front seat passenger the opportunity to watch visual entertainment simultaneously if fitted with the dual view technology. This world-class system uses the latest digital technology to deliver effortless performance.

harman/kardon® and LOGIC7® are registered trademarks of Harman International Industries, Incorporated.
iPod is a trademark of Apple Inc., registered in the US and other countries.
*1,200W Audio system is optional

harman/kardon
LOGIC7 HD

Autobiography is the ultimate expression of craftsmanship and exclusiveness for the interior of the Range Rover Vogue. Enveloping and cocooning driver and passengers in the finest leather, it is the definitive demonstration of the Range Rover Vogue's unique luxury.

Bespoke. The word's origins are in London's Savile Row, where cloth put aside on behalf of clients was said to 'be spoken for'.

Complementing the semi-aniline leather seats is full leather covering for the fascia, glove box lids, around the centre vents, door casings and behind the steering wheel. Even the driver's knee airbag panel is full leather.

Premium carpet mats with 2,050 gr/ms twist pile and aluminium corner protectors.

A full leather headlining swathes occupants in unparalleled opulence.

Autobiography leather is examined by hand. Fitted by hand. It's the personal touch.

Range Rover Vogue's alloy wheels are manufactured from extremely resilient material. They are designed to enhance looks and improve handling by reducing unsprung weight, allowing the suspension to react more quickly. Not only has each one been through a series of formidable tests, to simulate on and off-road stresses, every individual wheel is also x-ray checked before delivery.

Please note: When choosing vehicles fitted with specific wheel and tyre combinations or optional wheels and tyres, your intended use of the vehicle should be considered. Wheels with larger diameters and lower profile tyres may offer certain styling or driving benefits, but may be more vulnerable to damage, please see your Land Rover Dealer for details.

†If towing for commercial gain, please refer to your Land Rover Dealer for information relating to digital tachograph installation.

Fuel consumption figures: The results given here do not express or imply any guarantee of the fuel consumption of any particular vehicle with which this information may be supplied. Vehicles are not individually tested and there are inevitable differences between individual vehicles of the same model. The vehicle may also incorporate particular modifications. Furthermore, the driver's style and road traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance, will affect its fuel consumption. Usable fuel tank capacity of 104.5 litres. Low fuel warning at 8 litres approximately.

Dimensions & Capability

Thanks to its innovative cross-linked air suspension, the Range Rover can maintain a level ride height even over undulating terrain and be set to lower gently to ensure easy entry and exit when parked. Despite its impressive power and peerless capabilities, front and rear Park Distance Control and speed sensitive power-assisted rack and pinion steering ensure that manoeuvring in tight spots is always a simple, trouble-free operation. With up to 2,099 litres of cargo space the Range Rover again demonstrates its breadth of capability.

Performance & Weights

The TDV8 fuel range (based on usable fuel tank capacity and the combined economy) exceeds 1031km and the Supercharged has an impressive 0-100kph time of 6.2 seconds. Both the fuel economy and the performance are aided by the extensive use of aluminium components that include the bonnet assembly, outer door skins and inner door construction, wheels, transmission housing and front wings.

ACCESSORIES

Range Rover Vogue offers a unique range of accessories that can add both a degree of personalisation and individual style as well as further practicality and capability. A small selection of accessories is illustrated here.

The vehicle shown left includes Fixed Side Steps, Rear Mudflaps and Bright Finish Mirror Caps and Power Vents.

The alloy wheels shown on pages 48-49 may also be available as an accessory fitment. Please see your Land Rover Dealer for further details.

Automatically deployable side steps add even more personal convenience to the Range Rover Vogue and find particular favour with passengers and when the vehicle is being chauffeur-driven.

This smart, practical product helps ease entry and exit to and from the vehicle. Neatly stowed under the sills, the side steps automatically deploy as soon as a door is opened or by using the key fob then stow when the door is closed. The side steps are sensitive to obstructions and will not deploy in off-road or low range settings. Automatic mode can be overridden to allow access to the roof when the doors are closed. The deployable side steps are compatible with front mudflaps and feature a Range Rover branded tread mat.

Deployable Side Steps (deployed)*

Deployable Side Steps (stowed)*

Fixed Side Steps*

*See overleaf for part numbers and details. For vehicles with an Exterior Design Pack, the following sill mouldings must be fitted;
Right Hand LR018383
Left Hand LR018384

Also applies to Stainless and Black Steel Side Protection Tubes*. Please see your Land Rover Dealer for further details.

Deployable Side Steps (deployed)
(shown left) - VPLMP0041

Electronic Control Unit (ECU)*
(not shown) - VPLMP0026
2010 Model Year vehicles onwards
(not shown) - LR004028
2007-2009 Model Year vehicles only

Wiring Harness*
(not shown) - VPLMV0023
2010 Model Year vehicles onwards
(not shown) - VPLMV0022
2007-2009 Model Year vehicles only

Deployable Side Steps (stowed)

Fixed Side Steps
VUB503660
Includes integrated Front Mudflaps.

Side Protection Tubes – Stainless Steel
VUB001230

Side Protection Tubes – Black Steel
(not shown) - VUB002510

Can be fitted with or without
Front Mudflaps.

*Electronic Control Unit (ECU) and Wiring Harness must be ordered with deployable side steps.

Front Mudflaps
CAS500060PMA
Compatible with deployable
side steps. For vehicles without
Exterior Design Pack.

Front Mudflaps
(not shown) - VPLMP0046
Compatible with deployable
side steps. For vehicles with
Exterior Design Pack.

Rear Mudflaps
CAT500070PMA
Compatible with deployable
side steps. For vehicles without
Exterior Design Pack.

Rear Mudflaps
(not shown) - VPLMP0047
Compatible with deployable
side steps. For vehicles with
Exterior Design Pack.

Bright Finish Mirror Caps
VPLMB0041 - (Upper)
2010 Model Year vehicles onwards

Wind Deflectors
VUB000610

Bright Finish Power Vents
VUB503650

Roof Rails and Crossbars*
 CAB000040PMA
 Adjustable position crossbars
 included. Lockable for security.
 Load capacity 91.6kg.

Sports Bars*
 VUB502790
 Fixed position crossbars,
 easily removed when not in use.
 Aerodynamic profile.
 Load capacity 96.2kg.
 Vehicle height when fitted 1938mm.

Aqua Sports Carrier*
 LR006846
 Carries one surfboard or sailboard
 and mast, or one canoe or kayak.
 Load capacity 45kg.

Ski and Snowboard Carrier*
 LR006849
 Lockable for security. Carries four
 pairs of skis or two snowboards.
 Incorporates slider rails for easy
 loading. Load capacity 36kg.

Luggage Box*
VPLDR0003
Lockable for security.
Opens from both sides.
External dimensions: 1,600mm long,
960mm wide, 410mm high.
Volume 450 litres.
Load capacity 60kg.

Luggage Carrier*
LR006848
Load capacity 87kg on Sports Bars,
82.4kg on Roof Rails and Crossbars.

Sports Box*
VPLDR0002
Can be mounted on either side
of the vehicle for kerbside
opening in any country. Internal
retention system for skis or
other long loads. Lockable for
security. External dimensions:
2,300mm long, 620mm wide,
390mm high. Volume 400 litres.
Load capacity 60kg.

Expedition Roof Rack
CAB500070PMA
Load capacity 81kg.
Vehicle height when fitted 1,988mm.

Lashing Eye Kit*
VUB503160
Six additional tie down points for
use with Crossbar T-slots.

Ratchet Strap
CAR500010
Strap for securing items to the
Luggage Carrier or Expedition Roof
Rack, 5 metres long, 20mm wide.
Supplied individually.

*Roof Rails and Crossbars or Sports Bars are required for all Land Rover roof mounted accessories. Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio system, if fitted.

Tow Hitch Kit
RAA803

Pull your weight with strength and confidence using the durable Trailer Hitch Kit. A Tracking Target Sticker is required for Range Rover Vogue's fitted with Trailer Assist option. See your Land Rover Retailer for details.

Tow Bar Armature*

VUB503960
Towing subframe bolts to vehicle chassis. Accepts Quick Release Tow Bar, Multi-Height Tow Bar and Bike Carrier.
2006 Model Year vehicles onwards

12N/12S Type Towing Electrics**

VPLMT0006
Provides all trailer rear lighting and interior equipment power, where required. Supplied as a combined kit.
2010 Model Year vehicles onwards

TOURING ACCESSORIES

iPod Link Lead*

(not shown) - LR019691
Integrates the latest iPod technology into the vehicle audio system. In addition the link lead also acts as a charger for your iPod device.

Bulb Kit

(not shown) - VUB001062
A selection of essential bulbs are a legal requirement in certain countries.
2010 Model Year vehicles onwards

Warning Triangle

(not shown) - KCC500021
Vital in emergencies and a legal requirement in certain countries.

First Aid Kit

(not shown) - STC7642

Tow Strap

(not shown) - STC8919AA
Includes storage bag that can be attached as a warning flag to the strap. 3,000Kg maximum load capacity.

Tracking Target Sticker

LR021589
Required for vehicles equipped with Surround Camera System option which includes Tow Assist.

Load Retention Net
(shown left) - VUB000700
Includes floor net and two ratchet straps. Strap length approximately 2 metres.

Side Luggage Nets Pair
(not shown) - VUB000710

Illuminated Tread Plates
VPLMV0063
Illuminates the words Range Rover when the driver or passenger door is opened.

Loadspace Rubber Mat
LR003894
Waterproof with retaining lip and non-slip surface.

Dog Guard Full Height
VUB503890
Easily removed, incorporates useful integral ski hatch. Retractable Loadspace Cover can still be fitted. Not compatible with vertical blind and Rigid Loadspace Protector.

Dog Guard Full Height
VPLMS0039
For vehicles with Reclining Rear Seats.

Dog Guard Half Height
LR007320
Easily removed.

Dog Guard Half Height
VPLMS0040
For vehicles with Reclining Rear Seats.

Rigid Loadspace Protector
EBF000040
Complete with anti-slip mat (not shown). Easy access to tie-down points via removable grommets. Not compatible with Dog Guard Full Height.

Premium Carpet Mat Set
Deep pile carpet with waterproof backing.
Arabica
(shown left) - VPLMS0068AUM
Jet
(shown right) - VPLMS0061PVA
Sand
(shown right) - VPLMS0064SUN
Navy
(shown right) - VPLMS0067JMN
2011 Model Year vehicles onwards

Arabica
(not shown) - LR008844
Jet
(not shown) - EAH500280PVA
Sand
(not shown) - EAH500280SUN
Navy
(not shown) - EAH500280JMN
2007-2010 Model Year vehicles only

Flexible Loadspace Protector
VPLMS0017
Heavy duty fabric protects loadspace up to window height. Includes protective gloves.

Rubber Mat Set
 EAH500330PMA
 2007-2010 Model Year vehicles
 onwards
 VPLMS0084
 2011 Model Year vehicles onwards

Electric Cool Bag
 VUP100140L
 Powered by the 12 volt auxiliary
 socket. Thermostatically
 controlled temperature.
 Easy clean interior surfaces.
 Height 380mm, length 380mm,
 width 220mm. Volume 14 litres.

Security Box
 STC8018AB
 Heavy gauge steel with 2 high
 security locks. Internal Dimensions:
 870mm long, 190mm wide,
 190mm high.

Installation Kit
 (not shown) VUB000750

ourplanet

Our plan for a sustainable future.

We take our responsibility to our planet very seriously, with an integrated and innovative approach for a sustainable business and lower carbon world. As a company we are committed to:

Reducing our dependency on fossil fuels and the production of man-made CO₂ emissions...

Using fewer resources and creating less waste...

Enthusing our employees and stakeholders for sustainable business development

At Land Rover we do this by investing in four key areas:

e_TERRAIN TECHNOLOGIES. EFFICIENT POWER SYSTEMS; LIGHTWEIGHT STRUCTURES, REDUCED EMISSIONS

A joint £800m investment into new technologies designed to reduce CO₂ emissions and improve fuel consumption. We are targeting a 25 percent reduction in joint fleet average tailpipe CO₂ emissions within the next five years. Beginning with an intelligent Stop/Start system on Freelander 2 diesel manual, followed by Intelligent Power Systems Management (IPSM) with Smart regenerative braking on all Discovery 4, Freelander 2 and Range Rover vehicles, to the announcement of our new compact Range Rover, e_TERRAIN TECHNOLOGIES form a fundamental part of our carbon management plan.

Freelander 2 with intelligent Stop/Start now has 165g/km CO₂ emissions

SUSTAINABLE MANUFACTURING. USING FEWER RESOURCES AND CREATING LESS WASTE

World class manufacturing facilities, certified to ISO14001 since 1998. As a company we are targeting a 25 percent reduction in operating CO₂ emissions by 2012, 25 percent in waste to landfill and 10 percent in water consumption, based off 2007 levels. Going forward we are measuring our total operating carbon footprint and setting targets to reduce it; since 2006 this integrated approach has included the carbon offset of all manufacturing assembly CO₂ emissions from our Solihull and Halewood plants. But it doesn't stop there. Every new vehicle is designed to be 95 percent recoverable and reusable – with 85 percent that's recyclable and a further 10 percent that can be used to generate energy.

In 2009, we reduced our CO₂ emissions by 26,550 tonnes, water consumption by 192,000m³ and 1,300 tonnes to landfill

CO₂ OFFSETTING. INVESTING IN RENEWABLE ENERGY, TECHNOLOGY CHANGE AND ENERGY EFFICIENCY PROJECTS

For every tonne of CO₂ emitted during the manufacturing assembly of all our vehicles, Land Rover invests in carbon reduction projects that reduce an equivalent tonne of CO₂ elsewhere. In addition, we enable our customers to offset their first 45,000 miles/72,000 km of driving in their new vehicles. We do this in the UK as well as countries in Europe, the Middle East and Asia (not in Australia). Independently administered by ClimateCare and governed by a body of climate change experts, CO₂ offsetting allows us to take action now, to reduce our impact on the environment as part of an integrated carbon management plan.

Land Rover currently has 19 emissions reduction projects in our plan to offset approximately 2,500,000 tonnes of CO₂ by 2012...

Our customers in the Middle East have contributed over \$1,650,000 to this target since October 2008...

We have three Gold Standard projects in the portfolio: energy efficient stoves in Uganda and Ghana and wind generation in Aliaga Turkey

CONSERVATION AND HUMANITARIAN PARTNERSHIPS. WORKING PARTNERSHIPS FOR CONSERVATION & SOCIETIES GAIN

Our vehicles are designed for purpose, so are used by conservation and humanitarian organisations worldwide. Working with our five Global Conservation partners and the International Federation of Red Cross and Red Crescent Societies (IFRC), Land Rover is proud to support the important work of the Royal Geographical Society (with IBG), The Born Free Foundation, Earthwatch Institute, Biosphere Expeditions and the China Exploration and Research Society.

As part of our Sustainability policy Land Rover has actively promoted responsible off-road driving since 1990...

This year Land Rover launched a new three-year global initiative with the IFRC entitled 'Reaching Vulnerable People around the World' through which Land Rover aims to support IFRC's life saving work. To date Land Rover has given over £2.5m worth of support to IFRC, including vehicle donations and funds raised

WARRANTY: A comprehensive manufacturer's warranty is a feature of every Land Rover vehicle and extends to any genuine Land Rover accessories fitted by a Land Rover Dealer. The warranty period for the vehicle is three years/100,000 kilometers. In addition, the paint surface is also covered for three years/100,000 kilometers and the body work covered for corrosion for six years.

LAND ROVER ROADSIDE ASSISTANCE: All Land Rover vehicles purchased in Australia benefit from complimentary Land Rover Roadside Assistance service for the length of the new car warranty. This covers you Australia-wide 24 hours per day every day. And because it is Land Rover Assistance, help will also be provided if you become bogged or disabled on roads that only four-wheel drives can travel.

CUSTOMER CARE: Land Rover Australia has a dedicated Customer Care Centre to assist owners who may have a general query. Owners seeking this level of assistance are invited to phone our Customer Care Centre on the toll-free number 1800-625-642 or email enquiries@landrovercustomers.com.au. Land Rover ownership includes a package of benefits designed to provide high standards of after sales care and support.

LAND ROVER FINANCIAL SERVICES: Just as Land Rover lets you tailor a vehicle to your specific requirements, we offer you the same service when it comes to finance. You can arrange to purchase and finance your Land Rover from the people who know it best - your Land Rover Dealer. Your Land Rover Business Manager can explain the full range of finance options available from Land Rover Financial Services and provide expert advice to help tailor a finance package to best suit your needs. To discover more about Land Rover Financial Services visit your nearest Land Rover Dealer, call 1800 037 711 or visit www.landrover.com.au for more information.

IMPORTANT NOTICE: This publication is intended for international usage and whilst Land Rover take the utmost care in ensuring that all details in the publication are correct at the time of going to press, we are constantly striving for improvement and therefore reserve the right to alter specifications and equipment without notice. Details of specifications and equipment are also subject to change to suit local market conditions and requirements, and not all products are available in every market. Some vehicles are shown with accessories or optional equipment fitted.

All Land Rover Approved Accessories fitted by a Land Rover Dealer within one month or 1,600 kilometres (which ever occurs first) of the handover of a new registered vehicle will benefit from the same warranty terms and period of cover as the vehicle warranty. Accessories purchased outside of these parameters will be subject to 12 month unlimited mileage warranty. All Land Rover Approved Accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot and cold temperatures, corrosion resistance, impact and airbag deployment highlight some of the exhaustive product testing carried out to ensure accessories are both durable and importantly, continue to comply with current legislation. All our accessories are designed to be an integral part of Land Rover vehicles. While many items such as roof carriers are simple to fit, some products require specialist tools and diagnostic equipment to ensure correct integration with the vehicle structure and electrical systems. These products vary from market to market, please consult your Land Rover Dealer who will be pleased to advise you on current specifications and any query you may have. Distributors and Dealers are not agents of Land Rover and have absolutely no authority to bind Land Rover to any express or implied undertaking or representation.

The colours reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any colour finish without notice. Some of these colours may not be obtainable in your country. Please check availability of colours and current specifications with your Land Rover Dealer. Distributors and Dealers are not agents of Land Rover and have absolutely no authority to bind Land Rover to any express or implied undertaking or representation.
