

RANGE ROVER

IN
BROOKLANDS
GREEN

A sporting classic

The Range Rover has always been unique – a matchless combination of on-road refinement and off-road practicality. This special edition Range Rover is true to this heritage, but it offers

a fresh perspective on the classic Range Rover.

It offers the toughness and elegance associated with the Range Rover's unrivalled all-round performance and timeless style – plus a sporty new profile, with front and rear spoilers, side sills and five-spoke, gunmetal-grey alloy wheels.

It offers all the luxury and refinement that make the Range Rover the most sophisticated and comfortable four wheel drive vehicle – plus American walnut door cappings, air conditioning and an outstanding six-disc autochange CD player.

It offers a fresh look at a contemporary classic – plus a certain well bred discretion, exemplified by its glossy paintwork in Brooklands Green, the colour of the glory days of British motor racing, when success was accepted with a graceful bow as a matter of course.

The Range Rover, finished in Brooklands Green is a sporting classic, breezing through the city, along the motorway or across the roughest and toughest terrain.

Permanent four wheel

drive, coupled to the automatic gearbox and smooth power of its 3.9 litre fuel-injected engine, makes any driving a pleasure, whatever the conditions.

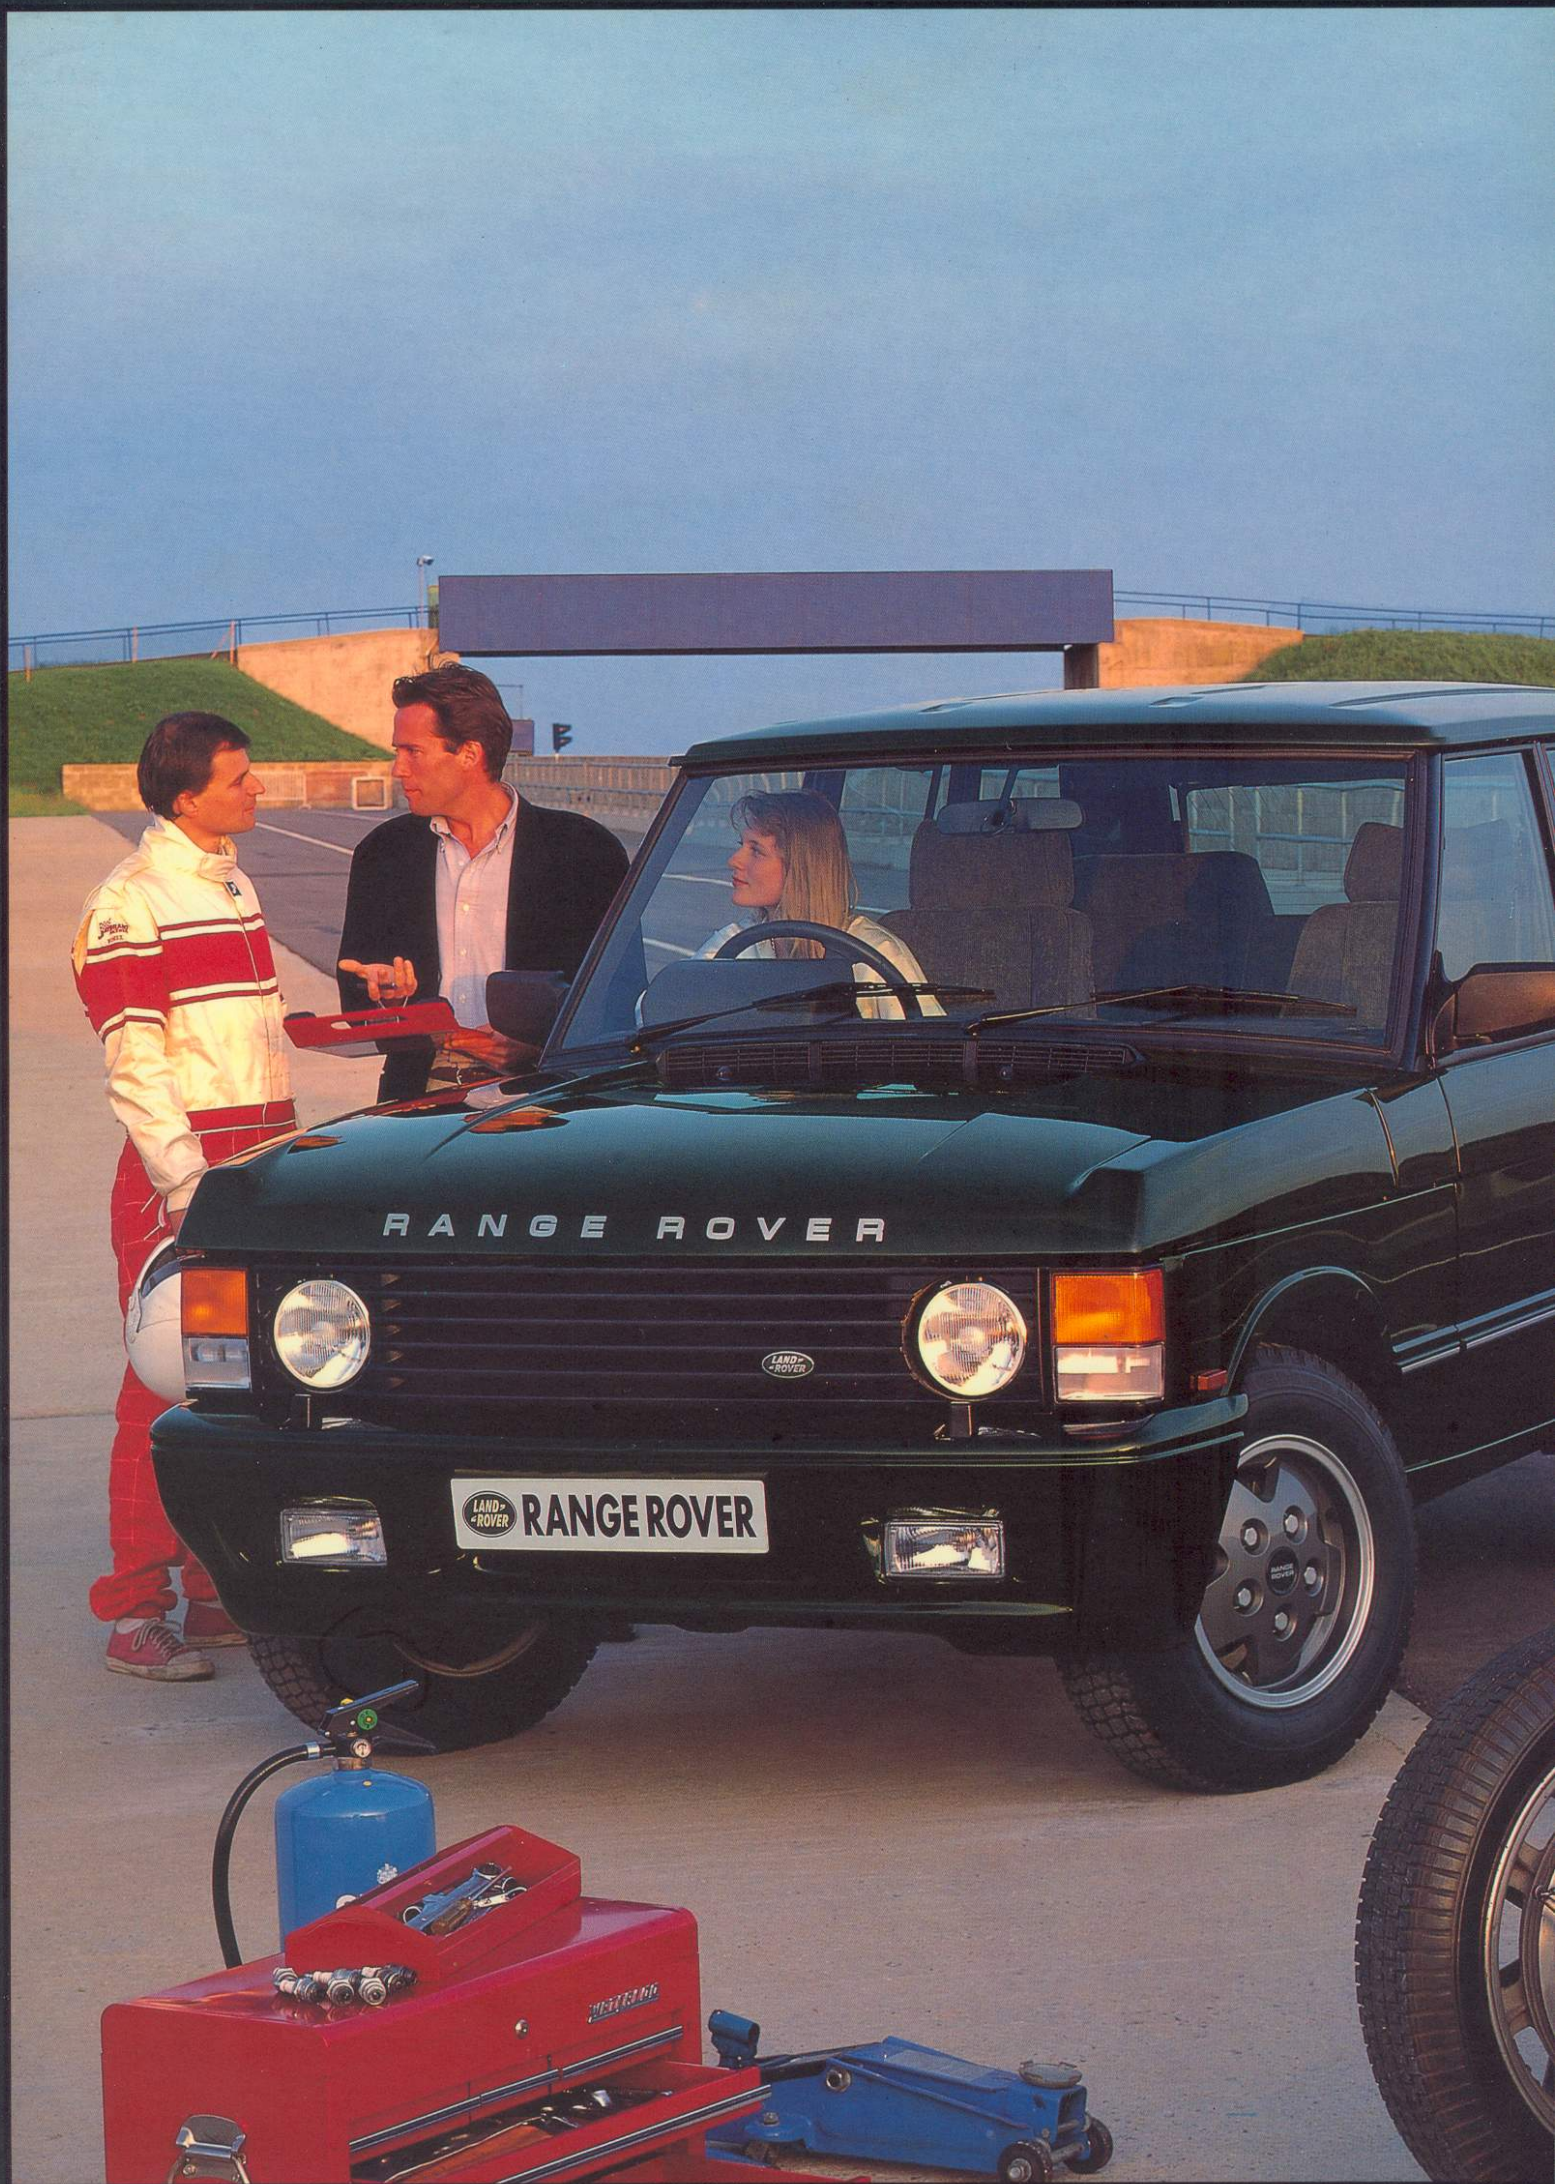

The interior is subtly luxurious and full of thoughtful touches. The air conditioning, for example, not only keeps the car cool but also prevents misting on the windows and windscreen. The in-car entertainment system not only provides a CD autochanger but also offers automatic tracking of radio stations and automatic broadcasting of traffic reports (RDS).

The Range Rover's safety and strength is legendary, even this special editions spoilers and sills – made of reaction injected moulded polyurethane – have been designed as an integral part of the car and subjected to the toughest on and off-road testing to ensure they meet Range Rover's supremely high standards.

And, since this car is a limited edition, only a few drivers with those same standards will have the chance to enjoy its special combination of classic luxury, unsurpassed performance and sporting style.

Coupled Brakes*	off road	1000

*Only applies to vehicles modified to accept coupled brakes.

The results given here do not express or imply any guarantee of the fuel consumption of any particular vehicle with which this information may be supplied. Vehicles are not individually tested and there are inevitably differences between individual vehicles of the same model. In addition, the vehicle may incorporate particular modifications. Furthermore, the driver's style and road and weather conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance will all alter its fuel consumption. Information as to the results of officially approved tests on all vehicles tested is available for inspection by customers on the premises where these vehicles are displayed.
